SERIAL No.	

Letter No 2612 D/-10 Jan 1912
 from the Excise Commr in
 Mysore submitting for
 orders certain questions raised
 by the Dy Commr Kolar Dist.
 in regard to appointments
 & promotions in the Arack
 Estts.

Order Thereon

Recent changes in
 the Excise Administration
 have necessitated Dy Commrs
 being made primarily
 responsible for the successful
 administration of the Excise
 Dept & the recovery of the
 Excise Rev under all heads.
 It is therefore very desirable
 that these officers should be
 allowed a free hand to
 select their own material

be attain the object aimed
at by Govt.

2. It would be inexpedient
on the score of expense to
transfer a hand from one
Dist to another to fill a
temporary appointment
carrying a difference of 5
or 10 Rs between any two
grades.

3. In minor appointments
upto the grade of Asst-Super
the Deputy Commr can always
find competent men in
the Arack, Toddy or other
branches of the Pabuk or
Dist Offices. Such inter-
change of hands between
the clerical and executive
branches will be to the
mutual benefit of both
services. This is what
should be done.

4. In the grades of e-
Asst-Super, the men must

be. When the vacancy is a
permanent one, D.C. may recommend
his nominee and take his
disposal of vacant app't. with
reference to seniority and preference.
But in the case of ^{fall} temporary appointments, the D.C.
of the Dist. may in the particular
case, also.

If the Dist. has any train-
men for employment, he may
send a few names with
full particulars to each
Dist. so that the D.C. may
appoint them as
sec. as reqd. *MS*

be ^{given} distinctly to understand
that promotion to other
Dep^{ts} will depend on the
performance of good honest
work in the Excise Branch
and on their qualifying
and passing the Civil
Criminal & Police Test
& other tests prescribed for
the ^{several} branches of the Public
Service & which they may
elect to join.

As otherwise there
will be no encouragement
to the passed men.

5 In all nominations
to the Excise for preference
should be given to those
who have passed the Excise
Test In the case of new
members the men should
be placed under the Asst
Super or Daroga for a short
while to acquire the necessary
practical training and
learn the use of the instru-
—— ments & the way the
accounts are to be checked.

and rendered. Such elections will be subject to Confirmation on their passing the required ^{exam} Test within 12 months. Facilities should be afforded new incumbents to visit the Distillery for a fortnight or so. This is not essentially necessary & can be done at convenient opportunities arise.

6. Under these circumstances the Excise Commr will give effect to the orders of Govt conveyed in Progs No 8831-9 of 17th Dec 92 and allow Dy Commrs to select their own men in appointments carrying salaries up to Rs 40/- & confirm nominations made by those officers above that limit, special attention being paid by them as far as possible to give effect to the views of Govt conveyed in order No 3 — of 12th April 88.

In a special Dept. letter to Secy, the Genl. Admin. of a J.C. making appts: up to 40 Rs. pay, cannot for obvious reasons be strictly followed. Now is it desirable on the part of the Secy to remove away all the appts. from the Dy Commr who are so much responsible, and keep them in his own gift.

Office Note of 31/5/95

Subject

Amalgamation of the different Branches of the Excise Department both Executive and Office.

Last Reference

Letter No. 4040 of 22nd March 1922
379 from The Excise Comr. in Mysore

The schedules sent up by the Ex. Comr. do not quote the authority sanctioning the Staff, and the changes made thereafter, and are wanting in other respects: -

2. Advantage has therefore been taken, in accordance with the precedent followed on previous occasions, to exhibit in the present Amalgamation all the different Branches both

Executive

Executive and ~~and~~ Offices ~~the~~
which will constitute the
future Excise Department.

This will dispense with
several very heavy files being
waded through and work will
thus be curtailed and facili-
-tated hereafter.

3. The work devolving
on each Supervisor, and the
extent of his range, with the
number of Inspectors as-
signed to each Taluq em-
braced in that Range; and
the average extent and com-
plement of work entrusted to
these Inspectors have not
been ^{totally up to} clearly set-forth in the
Excise Comr's Schedules but
have been indicated in detail
in the schedules prepared in
the Dewan's Office (Vide Slatt
No I part (C) & (C.1) appended);
to which a separate pro-
vincial summary is also
appended marked No II.

The following important facts
can be elicited therefrom:-

(1) There are 8 Districts, 20
Ranges

Ranges and 67 Taluqs. For this there are 20 Supervisors, and 112 Inspectors. This will give 2.5 Supervisors ^(i.e. two to three) per District, and a Supervisor for each Range. —

(2) To each District there will be 14 Inspectors, or 5.6 to each Range ^(i.e. 5 to 6) and 1.67 to each Taluq, ^(i.e. 1 to 2) on an average.

(3) Each Shop and Depot will have 1,169 souls residing in 6.61 square miles and contributing a Revenue of Rs 847 -- 2 to Government.

(4) The following Table exhibits the work which on an average, will fall on each General Supervisor and Inspector; details whereof for each Range & District are exhibited in Schedule I C & C(V).

Particulars	Provincial Total	Per Supervisor's Range	Per Inspector's Charge	Per each officer in both Ranks taken together
No of Shops & Depots	4,228	211	38	32
No of Groves	2,546	127	23	19
Total	6,774	338	61	51
Area in square miles	27,935½	1397	249	212
Population	49,43,604	2,47,180	44,139	37,452
Revenue	35,81,186	1,79,058	31,975	27,130

4. The present scheme ^{simply} involves an amalgama-
tion of the duties in the Arrack and Toddy
Branches, with no increase of hands or pay
in the Executive line over that now drawn
by the men in the ["]Upper Grades["] (Supervisors).

The increase of pay to the undermentioned
Upper Subordinates, Supervisors: not being
justified is therefore struck out^x. There will
also be only two grades of Peons, those
attached to Supervisors at Rs 8, and those
for Inspectors at Rs 6. The extra ^{in pay} Rupee has
therefore been struck off for 15 Peons. But
for the 7 Ayer Malnad Taluks 1 Re allowance,
in lieu of Batta, has been allowed as
in the case of Police peons (See summary
para 8 of this note). The increases struck
off will thus amount to Rs $80 \times 12 = 960$ yearly.

x. Note — The Excise
Commissioner himself
negatived the following
proposals as there was no
money and though de-
serving of consideration
they had "nothing to do
with the matter":—

- (1) Increase of House-
allowance to Super-
visors (Mysore).
- (2) Increase of clerical
aid (Kolar)
- (3) Increase in an
Inspector's pay (Chitaldroog)
- (4) Increase of pay to
Executive Staff (Bangalore)

Peons	Shimoga	$10 \times 6 = 60$	$10 \times 7 = 70$	10

Total increase monthly Rs 80.

Yearly $80 \times 12 = 960$.

5. It has been proposed by the Excise Commissioner to abolish the post of (Excise Officer) Assistant Inspector Rs $7+3=10$ and substitute Peons on Rs 6 instead. This will effect a saving of Rs $19 \times 4 = 76$ monthly. The existing incumbents will be retained for three months in lieu of notice, and if not provided for otherwise, will be retired under the rules in force.

6. It is proposed by the Excise Commissioner to rank those on Rs $10+5$ as "Sub-Inspectors". It is scarcely to be expected that good honest men can be enlisted for the very important and responsible work under both Arrack and Toddy for such ill-paid remuneration especially in the Malnad. The last grade Inspector's post on Rs $15+10=25$ is quite low enough. Part

of the savings of Rs 76, alluded to in para 5 above will therefore be utilized to raise the pay and rank of these men and the posts in 5 Taluk as per margin will be disposed of as follows:
(1) Sorab :- The existing hand on Rs $10+5$ with

will be made Inspector on Rs 15+10=25 and confirmed at Sorab.

(2). Nagar } - A Detective Assistant Supervisor was transferred to the General Department and posted to Chickballapur. His Assistant Tester on Rs 10+5=15 and Peon on Rs 8 ought to have been dispensed with at the time. This was not done. The man on Rs 10+5=15 will be posted to Nagar with a peon on Rs 6, as last grade - Inspector on Rs 15+10=25. Note - The additional man on Rs 15+10 in the Hassan Taluk cannot be spared from the Hassan District for appointment in Sorab Taluk as suggested by the Excise Commissioner. He will be transferred to the Arsikere Taluk where there are 218 Vannams and 58 Arrack and Toddy shops or more than what two Inspectors can effectually look after.

(3). Hundere :- } A Tester being posted to Manjarabad an additional hand on Rs 10+5=15 and his peon are available. They will be transferred to Hundere and the former made last grade Inspector on Rs 15+10.

(4). Channarayana :- The Florepet Taluk has 2 Inspectors

Inspectors. One can be posted at at Head Quarters and the other at Chennipatna. The Assistant Jester on Rs 10+5 and a peon on Rs 8 ought to have been thrown out when the Detective Assistant Supervisor was transferred to the General Branch and posted to Hospet Sub-Division. This will be done now. He will be provided for as per para 7 below.

(5). Seerah Taluk :- The Inspector on Rs 15+10 and his peon were transferred for Amam work in Bangalore and will revert to Seerah where his services will now be absolutely needed. Another Jester (Inspector) will be provided for Bangalore Taluk Range to raise their No: to 3, and can be utilized for the additional work in Bangalore City and Station also. A Jester cannot be sent to Mysore Town from the Bangalore District. The city of Mysore has a Jester who will do both Arrack and Toddy work hereafter and the two Taluk Inspectors when at Head Quarters will so do also, where one of the two will invariably remain. These men are thus available for the Mysore Taluk and Town. This was the object of the amalgamation.

- ending

- existing hands must be utilized in each District to the fullest extent possible.

7. The Deputy Commissioner and Excise Commissioner are at issue as to the No: of Supervisors needed for Bangalore District. The Excise Commissioner wants 3 Officers in addition to the Head Supervisor. The Deputy Commissioner suggests that two Taluks (Nelamangala and Bangalore) be given to the Head Supervisor in addition to the Head Quarters Range and the other 7 Taluks distributed among two Supervisors thus dispensing with one officer. From

my own experience of the District for 15 years and after consulting the Head Supervisor,

I would suggest that the Head Supervisor be given the Head Quarters Range and the Bangalore Taluk, which are as much as he will be able to look after effectually by and the two other

Supervisors each 4 Taluks. This is not at all too much when compared with charges held by Supervisors in other Districts as per margin. The 3rd Supervisor who was transferred from

from the Detective to the General Branch in 1894, will now revert to the Detective line again where there is much work to perform and pro-tem be posted with his staff Assistant Teser (Duffedar) 10+5 and 2 peons at Rs. 8 each = 16, at the Kolar Gold Fields (Head Quarters Goregunn) where a 1st class Detective's services are most urgently needed and this hand can well be spared from the Bangalore District where the issues at stake are not so vital and important as at the Gold Fields. The Deputy Commissioner opines that two Supervisors and the Head Quarters Supervisor will suffice for that District. This has accordingly been effected in the proposals entered in this office for the new scheme, but as heavy additional out-door work will devolve on the Head Supervisor necessitating rapid trips into the Taluk, he may as a special case be allowed a personal allowance of Rs. 25. The savings under para 5 will cover this charge. The Deputy Commissioner supports this proposal for an increase to this officer. Vide para of his Letter No. 81. which.

9. As regards the amalgamation itself in
Letter No: $\frac{23078}{2464}$ dated 27/6/94 to the Excise
Commissioner, Government expressed an
opinion

opinion and laid down certain proposals for attention to give effect to the step which I briefly extract and divide into 3 heads as noted below.

(1). "Opinion" } "The proposal was a good one which has to be carried out in due course of time. It is however doubtful if it is expedient to introduce at once; for it must be remembered that the present Toddy System is still in its infancy and requires special fostering for a longer time and the policy of assigning immediately other work to the Toddy Inspectors may have prejudicial effect on the Toddy Administration. At any rate the subject requires consideration from this point of view."

(2) "Rules" } "The Dewan would also like to see a set of Rules for the guidance of Excise Officers of all grades defining their respective duties and explaining the points to which their attention should be directed in the course of their rounds."

(3). "Instruction of Officers" } "It is feared that the existing Officials would require to be taught

"Taught a great deal before those who are on
"Toddy duties may be fit for ~~Attack~~ duties
and Vice Versa"

10. It was of primary importance that a copy of the above Letter, which contained the views of Government should have been sent to each Deputy Commissioner. This is not stated in the reference to have been done and I believe it has not been seen by the District Officers. Note. — It was published in Abstract Form in the monthly printed Proceedings, page 18, part II, Revenue, and not in detail.

11. As regards point 2 the so called rules sent, treat at great length of the "powers of Excise Officers" This is a point which it would have been preferable to have left out altogether or have kept in the back-ground instead of bringing it forward so prominently. On the other hand what the Dewan actually wanted was to define each officer's duties and set forth how the several points to be attended to, at Inspections were — actually to be practically performed by the men on their tours. I beg to append a printed

printed paper of instructions I draw up for the Head Supervisor, under the orders of Government No: 1382-91 dated 29/5/1884, which will explain what is required on this head. The object is patent. If any one is appointed as ^{Superior &} "Inspector" he will know, exactly, not only what his duties are, but how to practically do them by reading the instructions for his

guidance. The set of instructions should

embrace the margin-

-ally named employees

and Officers both

superior and inferior.

Work will not then

be scamped or done

in a perfunctory

manner. Each one will know what he

is to do and how he is to do it.

12. As regards point 3 of the Government Order, it is not being clearly laid down what the Inspector's duties are and how he

the Arrack Branch and how that work is to be practically performed, checked, and disposed of now after visiting two or three offices and practically seeing for myself what is being done now and noting the same for adoption.

15. My impression is all the men must be first fully instructed as used by Government, and this must be systematically done by reference to a set of Rules to guide each man on each point, ere the amalgamation can be effected with real advantage and the men are entrusted with the work they are to perform.

16. The Detective Branch has been entrusted for the Provincial Service and will be moved about from Taluk to Taluk or District to District as work is cut out for them as contemplated in Government Pro: (No: 1152 Dated 24/3/1890 para 7). This can only be done with any practical

effect if the funds assigned by Government for "Secret Service" are properly utilized and by entertaining the

he is to practically perform them, it would be essentially necessary that these should be reduced to writing and thrown into the form of Rules as suggested by Government. These Inspectors should be fully posted up in their work and empowered to act or exercise the functions prescribed for Excise Officers under the Acts as set forth by the Excise Commissioner in extenso.

13. As regards Toddy I have printed a set of instructions of what is expected of each officer, Village, & Taluk, Inspectors and Darogas and in the Diary have expressly indicated the specific points to which attention should be devoted and how shortcomings are to be dealt with by all. — Recent experience may have indicated some additions and changes which should be now effected therein and adopted as a guide as regards this Branch of Excise by both Supervisors and Inspectors.

14. If permitted, I shall specify the kinds of work now devolving on each officer in the

The services of proper informers in tracks where illicit distillation prevails now and contraband liquors and drugs are imported from Her Majesty's Territories.

17. The Taluk Inspectors will be under the direct orders of the Amildars and all communications will be addressed to the former. The diaries will be sent to the Amildar in duplicate who will pass on a copy with his remarks to the District Office. The Excise Assistant Commissioner will with the aid of the District Clerk and Senior Inspector at Head Quarters over-
-haul the diary and return the remarks signed by the former to the Amildar who will note the same in the 2nd copy and pass it on to the Inspector for note and re-
-turn or explanation which will be in-
-serted in the "Original" and returned to the District Office for disposal. No cover-
-ing letter or Gadee or order will be ne-
-cessary therefor.

18. All returns will be similarly trans-
-mitted through the Amildar to the District Office. There will be no
correspondence

correspondence between the Assistant — Supervisors, and Taluk Inspectors and Amildars. All ~~references~~ will go through the District Office signed by the Excise Assistant Commissioner of the District.

19. When the Assistant Supervisor visits the Taluks of his Range one of the Inspectors will accompany him through the Taluk. The Inspector will note the results of the inspection as it proceeds in his diary and record any observations, remarks or special instructions given him by the Supervisor. The diary when sent to the Amildar will enable him to see everything and he will pass any necessary orders thereon to the Inspector, ere he sends the diary on to the District Office as usual.

The Assistant Supervisor will note the results of his inspection in his diary and the instructions &c given to the Taluk Inspector, when he sends it up to the

District Office. The Head Quarters of the Supervisor will be at the Head Quarters after which the Rangos are named in the Statement. *

Memo.

The Lyceum Com. has consulted all the Dy Comrs & submitted copies of their opinion. Every one of them is in favor of the proposed amalgamation. A few of them made certain suggestions which the Lyceum Com. has adopted as far as possible. It is only the execution or suspension that that we are now concerned with. (Revised) So that Isolationism need not therefore be mixed up with the subject of this reference. The Dy Comrs & the Lyceum Com. have given the proposals in question their best consideration. 2 - The proposal is a good one. It involves no additional cost. The new body system has passed the stage of experiment. The main question is not likely to have a prejudicial effect on the body administration. Efficiency in both branches will be secured by functioning the case for a period. The details have been carefully thought out by officers who must be credited with a knowledge of local requirements.

The arrangements made for
 the L.C. Commr. seem to
 involve too many transfers

 the present. In future, then, if
 transfers will have to

Note by the Special Assistant ^{for} on the Excise Commissioner's proposal to amalgamate the Kruak and Toddy Branches

I append two statements (A) Toddy and (B) Spirits and drugs, illustrating numerically the strength and cost of each Branch. The Revenue and other figures also give a general idea of the work each branch has to grapple with. The following is a brief summary for the Province

Toddy

Kruak

To inspect 13,338,348 trees located in 2407 groves, to ascertain the Revenue involved in the sale of Toddy in 3012 shops by 1,236 Farmers. The Toddy consumed is estimated at 2,911,242 Gadas, valued at Rs 25,64,984. Much of this is sold at Vana and by surreptitiously. Government Revenue is Rs 14,06,139. It depends on the newly created Toddy staff to bring the large margin left over legitimate profits for working to book. The staff employed has been employed in office work. Out-door work has been almost wholly neglected. Vanas have not been demarcated, unsurveyed and replanted.

The staff sanctioned for this purpose is 9 Daroghas monthly 3420 88 Inspectors yearly 40040 97 peons

To inspect 1096 Kruak } This has not
For Liquor & } been materially
drugshops 145 Depots } increased but the reverse. The strength of the General staff has been gradually raised during the past 14 years, several-fold. The pay and allowances have also been increased. A Detective Agency has been added. This has been also raised three. The General Branch has thus been left to attend to the consumption of excised liquor and the preparation of the returns and accounts needed. While the Detective staff

Staff has been devoting its whole time to the detection of illicit cases especially of illicit distillation.

The Excise Revenue under all heads except Toddy is about 14,00,000 and that derived from Toddy

is also about 14,00,000

General Branch: Spirits & Drugs

Supervisors	9	Cost Rs 1692
Testers	23	
Excise Officers	27	
Peons	9	

Detective Branch:

Supervisors	10	1055
Excise Officers	10	
Peons	20	

Monthly Rs 2747

Yearly — 33964

2. It will thus be seen that each branch has its own work cut for it. Each Branch must naturally suffer if saddled with extraneous work out of its own line. Work will be scamped or performed in a perfunctory manner. Each

Branch has been trained for the special work which devolves on it. The Excise Commissioner has transferred two Detectives of the ~~1st~~ class from the hot-bed of illicit distillation in the Malnad. One of the 1st class to Chikballapur or Rs 90/ and a third class on Rs 65/ to Chickballapur. These men have also been set to do General duties in the Sub-Division connected with Arrack Shops &c. They are now ~~actually~~ actually amalgamated with ^{the} Toddy staff in the present proposals. What sort of Detection can be performed by a Detective: say in the Police in unearthing murder cases or high-way robbery if he is kept to do beat duty. Yet this is what the Excise Commissioner wants to do with the Special Detective staff viz to look after Arrack and Toddy shops.

Shops and neglect their legitimate duty in hunting up illicit — distillation cases in the Malnad where 200 cases have been run in proof that ^{the} evil is life ~~as~~ ^{as} several imports of contraband liquors and drugs across the frontiers. The General Branch must do its work and the Toddy — Department its work and the Detective Branch its work. All three will suffer by any amalgamation the stamp indicated.

(3) It is true the Akroth Branch is weak. I have discussed the matter with ^{most} the Deputy Commissioners and they concur with me that it would be advisable to enlist the aid of the Hospital Assistants of the Local Fund Dispensaries. They are in central places where
the

The Sales are the highest. The ^{in such towns} Revenue involved aggregates Rs 4,41,000. The regular truck staff could then be set free to look after out-lying village shops now neglected by them as they do not lie on the high roads. I beg to refer to my printed ^{Appendix LX by} Notes No. 197 dated 9th Sept^r attached to my case for full details on this point. -

(4) Another proposal has been put forth by the Excise Commission to confirm ^{Temporary} the Detective Staff. This would be suicidal to that Branch. If the papers are referred to me I will conclusively prove this to be the case.

To

The Chief Secretary to the
Dewan of Mysore.

Sir,

I have the honor to solicit
the orders of Government on what
is stated below.

2. The deputy Commissioner of the
Sunkur District, on the occasion
of a temporary vacancy in a 2nd
grade Lesters post, gave the same
to a Bonded depot Mutsuddy,
presumably on the ground that
there was only one Lester in his
District, but thereby in fact he
was overlooking the claims of
3rd & 4th grade Lesters and Assistant
Lesters serving in other districts.

3. Thereupon, I addressed a letter
Rs 2277, dated 15th December 1893,

To this there
can be no
objection if he
is placed under

to the Deputy Commissioner, Tumkur district, which was as follows:—

1. "The Deputy Commissioner's Kanures

"In reply has the honor to observe

"handling them. Inexperienced men
"not knowing how to use them,
"are apt to break them like the
"acting Tester alluded to in the
"yadi under reference, and who
"appears to be a stranger to the
"department."

2. "The Arrack Establishment is a
"Provincial† Establishment consisting
"of Assistant Supervisors, Testers and
"Assistant Testers of various grades
"scattered all over the province.

4. A copy of the above was sent with

my no 2278-84 dated 15th December 1893

to other Deputy Commissioners for information

and guidance. The Deputy Commissioner,

Commissioner, Kolar district, I do not think it was intended to be of universal application, or that Government in issuing the said Proceedings, intended that the claims of Senior men in other Districts were to be overlooked by the Deputy Commissioners in making appointments and promotions in their respective districts. The Arrack Establishment is a Provincial one consisting of Assistant Supervisors, Testers and assistant Testers of various grades and Salaries, scattered over the Province, as per particulars below (vide Government Proceedings No. 1152 dated 24th March 1890):—

deputy Commissioner's remark that
 "promotions may be given to deserving
 men in each district as vacancies
 occur", I have to observe that in
 the Kolar district there is one General
 Assistant Supervisor on Rs 40 + 15
 and three 4th grade Testers on
 Rs 15 + 10 each: but there are no
 intermediate 1st, 2nd + 3rd grade
 Testers. Supposing the General Assistant
 Supervisor's post becomes vacant,
 would it be fair to give it to a
 deserving 4th grade Tester in the
 Kolar district, as apparently
 opined by the Deputy Commissioner,
 to the prejudice of his seniors
 in no less than three higher
 grades? And to assume an
 extreme case, supposing such
 4th grade Tester got the Assistant
 Supervisor's post on Rs 40 + 15,
 and from some cause or other
 it again became vacant,
 would it be fit for another Tester
 on Rs 15 + 10 in the Kolar district
 to get the vacant place? All

Sir,

these Sesters would be entitled to expect, is a step in the general promotion consequent on the vacancy in a Senior grade. Again in course of time, this General Assistant Supervisor on Rs 40+15, might reasonably look forward for promotion; and is he debarred from the same on the principle advocated by the Deputy Commissioners, Kolar District, viz promotion to run in Districts? Then again it is considered expedient that the last grade of Assistant Sesters should not be filled up by an inexperienced Comedwar, but by persons trained for the work at the Government Central Distillery and by the Supervisors & Sesters in the respective Districts. Lastly, the Excise Commissioners must or should know more of the relative merits of the General Assistant Supervisors & Sesters as a body than Deputy Commissioners, who as a rule, would only judge of individual merit.

2. The Success of the present Arrack and Saddy Systems and the protection of both the Government and public interests by enforcing the Sales of undiluted and wholesome liquors and by preventing and detecting malpractices of every description, mainly depend on the constant, repeated and efficient inspection of Depôts, Shops and the groves of Date and Bagni trees. The present Arrack Staff is too weak to do justice to the requirements of the work connected with the Arrack and Drug Depôts and Shops. My Assistant Mr. Davy having been out on several tours of inspection, has brought to notice that Arrack Shops in some taluks had been inspected only once a quarter for no fault of the Inspecting Staff, because there being only one Tester for four or five taluks, and in some districts for the whole district, the Tester cannot

Cannot be expected to inspect each arrack and drug shop oftener than once a quarter. Such inspection is worthless for obvious reasons.

3. Under the Excise Laws and Rules, every Excise officer is bound to perform all the duties connected with the administration of Excise Revenue, namely prevention and detection of crime, inspection of every description and the enforcement of punctual and regular payments of all Government dues. But the arrack and Toddy establishments being now separately and distinctly constituted, the members of the arrack staff do not attend to the duties relating to the Toddy Revenue and vice versa.

When a Sester inspects an arrack shop, he takes no notice of a Toddy shop situated only a few yards from it, and similarly a Toddy Inspector is equally indifferent about arrack shops situated

Situated in one and the same place. There is only one Inspector in each of the Tumkur and Chitaldrug Districts, and he has to travel many miles from the Head quarters of the District to inspect the Arrack and Drug Shops and depots in all the taluks of the District, whereas the Soddy Inspector, who is on the Spot, does not inspect them. I have also reason to believe that the members of the respective Branches even overlook the irregularities and malpractices which may come to their knowledge during their tours, simply because they do not concern the particular Branch to which they belong, or because they are not conversant with the Rules of the Branch concerned. It has also come under my notice that the members of one Branch do not care to study the Rules of the other, and that they do not cooperate with one another. Therefore the amalgamation now recommended is urgently called

To

The Under Secretary to the
Government of Mysore
Excise department

Sir,

In continuation of my
letter No. 3829, dated 13th instant,
I have the honor to submit,
³⁵⁹
herewith, six printed copies
of a pamphlet containing
my proposals for the amalgamation
of the Arrack and Toddy Branches
of the Executive Staff, and
a Draft of my Circular
defining the duties & powers
of each class of Excise Officers
in the would-be amalgamated
Inspection Staff.

2. As ordered by Government
in Chief Secretary's letter no. 23078
R. 2464
dated 27th June 1894, I forwarded
28-
my scheme to the deputy Commissioners
of districts for their opinion thereon.
I have received the opinions
of all the deputy Commissioners,
and a copy of the same is
herewith enclosed, from which
it will be seen that every one
of them is in favor of the
amalgamation.

3. I beg to review hereunder
the opinion and suggestion
of each of the deputy Commissioners,
in the order in which their
communications were received
in this office:—

(1) Tumkur District no. 1191, dated 9th February 1895

The Deputy Commissioner agrees
wholly with my Proposition
for the amalgamation, and
with my draft Circular.

(2) Shimoga District no. 1617, dated 18 February 1895
150

The Deputy Commissioner agrees
wholly

wholly with my Scheme and suggests two points, ³² viz -

- (a) to dispense with 2nd grade Sub-Inspectors on Rs 7+3, and to have only one grade of Sub-Inspectors on Rs 10+5; and
- (b) the appointment of a separate Excise Assistant Commissioner for each of the eight Districts.

I have not retained 2nd grade Sub-Inspectors on Rs 7+3 for the Mofussil. But I have retained them only at the Head Quarters Range, i.e. the Civil & military Station and City of Bangalore. They are not to work independently but to accompany the Inspectors on their inspections. They are attached to the said Inspectors in lieu of peons. They have no responsible duties to perform. In fact, as per Section 28 of the Excise Act, no Excise Officer in receipt of a monthly salary (which means the sum of pay and acting allowance, but

but does not include Travelling Allowance vide article 30 & notes under it of the Mysore Service Regulations), of less than ten Rupees, can arrest persons in possession of articles liable to confiscation, nor can he seize such articles. Under such circumstances, it is undesirable to raise their pay to Rs 10+5. In regard to the 2^d point suggested by the deputy Commissioner, Shimoga district, I beg to state that I quite concur with him that a separate assistant Commissioner for Excise work in each district is an absolute necessity. This point is, however, foreign to the present Proposition for the amalgamation of the subordinate Executive curack and Foddy Establishments. I have already, in my letter No. 1143 dated 6th September 1894, submitted my proposals for the appointment of a separate Excise assistant Commissioner for each district.

already disposed

(3) Kadur District No. 1105, dated 4th March 1898

34
The Deputy Commissioner
thoroughly approves of my
Scheme.

(4) Hassan District No. 1045 dated 6th March 1898
Final

The Deputy Commissioner
agrees with my proposals and
suggests certain alterations in
the arrangement of the Ranges.
I approve of the alterations and
have made them accordingly
in my Proposition Statement.
The Deputy Commissioner also
rightly recommends that an
Assistant Commissioner should
be specially and exclusively
appointed for Excise work
in each district.

(5) Mysore District No. 1426, dated 8th March/98
9

The Deputy Commissioner
states that it will certainly
be an advantage to amalgamate
the arrack & Foddy Establish-
-ments and suggests that the
amalgamated Staff should
be

be so organized as to secure the efficient control of the Amildars and other higher officers of the Revenue Department over the Excise officials in the Mofussil. It will be seen from the instructions laid down in my draft Circular that the Excise Establishments of taluks are to be under the control of the respective Amildars. The Deputy Commissioner wants an additional Inspector for the Mysore town. I have accordingly transferred to the Mysore District the 4th grade Inspector from the Bangalore District whom the Deputy Commissioner of the Kolar District does not want for the Kolar taluk. The Deputy Commissioner has suggested certain rearrangement of the Ranges, which has accordingly been made. The alterations proposed by him, have also been made in my draft Circular. He recommends the horse allowance of Supervisors to

to be raised from Rs 15 to Rs 20
This is a general question to be
dealt with separately, and has
no connection with the proposed
amalgamation.

(b) Kolar District No. 3/38 dated 8th March 1982

The Deputy Commissioner has repeatedly advocated the amalgamation, and has therefore nothing to add now. He states that my draft circular requires no alterations. He does not want two Inspectors for the Kolar taluk, on the ground that the Supervisor stationed at Kolar can look after the shops &c with the help of one Inspector. Accordingly the figures relating to the Jester, whom I proposed to transfer from the Bangalore district to the Kolar taluk, have been deducted from the details of the Kolar taluk. The Deputy Commissioner requests that an additional clerk on Rs 15 and an increase of

of Rs 5 to the present Excise Clerk may be included in the Proposition Statement. This is a point unconnected with the proposed amalgamation of the Executive arrack & Toddy Establishments. Moreover, there is no money available for it out of the present Scale. I have therefore not included the Deputy Commissioner's proposal for increased clerical establishment in my Proposition Statement. The Deputy Commissioner states that two Inspectors are not required for the Bagepally taluk, and that one of them may be reduced when a vacancy occurs. There are 21 arrack Shops and 35 Toddy shops in it, situated at considerable distances from one another. Moreover, this is a frontier taluk where the smuggling of liquor and drugs has to be prevented.

J

38

I am therefore of opinion that both the Inspectors are needed to ensure efficient supervision. The three 2^d grade assistant Lecters who will be thrown out of employ, being pronounced unfit for Votta Mutsaddys' posts, the Deputy Commissioner should give them such posts as they may be fit for. Till they are otherwise provided for they should get the pay of the peons provided in the Proposition Statement, plus the difference as personal allowances.

(7) Chitaldroog District No. 257, dated
9th March 1895.

The Deputy Commissioner is of opinion that the proposal to amalgamate the Arrack and Foddy Branches of the Executive Staff is a good one, and that it is supported by several weighty reasons nearly all of which have

been

been fully set out in the
Excise Commissioner's Memo;
that the two Branches
are so intimately connected
with each other that they
might advantageously be
constituted into a single
Inspection Staff; and that
the Proposition Statement
has been prepared with due
regard to the requirements
of the several parts of the
Province, and may therefore
be generally adopted without
any substantial modifications;
and that the Scheme propounded
by the Excise Commissioner
is calculated to ensure a more
efficient administration
of the Excise department
than at present. He wants
a 2^d grade Inspector on Rs 2540
in addition to a 4th grade Inspector,
for the Bhithaldroog town.
I have provided one 3rd grade
Inspector and one 4th grade Inspector
for

for the Chittaldroog town, following
the present sanctioned ⁴⁰ scale.
No money is available at
present to promote the 3rd grad
Inspector to 2nd grade. The Deputy
Commissioner has recommended
certain rearrangement of
Ranges in his District, which
I have accordingly made
certain important alterations
suggested by him, have been
made in my draft circular.
I agree with the Deputy Commissioner
that the Executive Staff
should be a provincial one.

(8) Bangalore Disturb no. A. 254,
dated 16th March 1895.

The Deputy Commissioner
states that he has always
been of opinion that the
amalgamation of the araxes
and Soddy Establishments
will while economising
expenditure to a certain extent
augment the efficiency of
the

the Service to a very great extent; that the Excise Commissioner had not thought of the amalgamation a moment too soon; and that he has not the slightest hesitation in supporting the proposed amalgamation. He suggests that the Head Quarters Range, i.e. the Civil and Military Station and city of Bangalore, may include the Bangalore and Melavangala taluks, and that Doddballapur taluk may be added on to the Hoskote Range, so that the post of a 3rd Supervisor may be abolished. I do not agree with the Deputy Commissioner on this point. The Head Supervisor who is in charge of the present Head Quarters Range, has also to supervise the Central distillery and the Bonded Depôts at the city of Bangalore and Civil and Military Station, besides 56 arrack shops, 9 drug shops, 21 Foddy shops, Foreign liquor shops &c. He has thus sufficient work at the Head Quarters

quarters; and if, as proposed by the Deputy Commissioner, the Bangalore & Belavangala taluks be placed under his supervision, the work both at the Head Quarters and in the said taluks would materially suffer. Moreover such arrangement would be inconvenient as the proportionate cost of the Head Quarters Range is borne by the British Government. The Deputy Commissioner also proposes that one Inspector is enough for each of the Bangalore, Anekal and Hoskote taluks and that two Inspectors are wanted for the Doddaballapur taluk. The Deputy Commissioner does not seem to realize the importance of the very responsible work relating to arrack. The sale of undiluted and wholesome arrack to the public depends mainly upon frequent inspection

13 inspection of Shops. The Statistics
of these taluks are given below
for ready reference:—

<u>Taluk</u>	<u>Total</u> <u>Revenue</u> for 1893-94 <u>Rupees</u>	<u>No. of</u> <u>arrack</u> <u>Depôts</u>	<u>No. of</u> <u>arrack</u> <u>shops</u>	<u>No. of</u> <u>Drug</u> <u>shops</u> <u>wholesale</u> <u>+ retail</u>	<u>No. of</u> <u>Foddy</u> <u>Shops</u>	<u>No. of</u> <u>Date</u> <u>groves</u>
Bangalore excluding city + station	132,413	7	58	7	19	49
Anekal	47,106	2	30	4	19	Scattered trees
Hoskote	42,711	3	36	6	20	22
Dodballapur	34,241	1	12	3	29	38

It will be seen from the above
figures that there is a great
deal more work in the
Bangalore, Anekal + Hoskote
taluks than in the Dodballapur
taluk. The arrack work
alone in the first three taluks
is more than two Inspectors
can cope with. Moreover,
Anekal and Hoskote being
frontier taluks, the smuggling
of liquor and drugs from
British territory has to be prevented.

I have therefore retained two Inspectors for the Bangalore, Anekal and Hoskote taluks. The taluk of Kelawangala which has more shops and more revenue than the Doddaballapur taluk, has only one Inspector, and therefore one Inspector is considered sufficient for the latter also. The redistribution of Salaries suggested by the Deputy Commissioner is foreign to the present scheme. The Deputy Commissioner says that I have omitted Wotlu Mutsaddys in my Proposition Statement. The present Proposition has nothing to do with clerical establishments which will remain intact. My observations in clause (2) above, apply equally to the Deputy Commissioner's remark about Sub Inspectors. As
opined

opined by the Deputy Commissioners,
the Head Supervisor deserves
an increase of pay; and
there are several others
who are worthy of such
consideration. But this question
has nothing to do with the
present Scheme. A separate
recommendation will be
submitted on that point.

I have the honor to be,

Sir,

I have the honor to acknowledge the receipt of your Pocket N^o 3330-7 of the 26th Ultimo ¹⁴⁸ inviting my opinion on the proposed amalgamation of the Toddy and Arrack branches of the executive staff of the Excise Department and the draft rules framed by you for the guidance of the Excise Officers.

2. I feel no hesitation in saying that in every point of view, there is no necessity whatever for having two separate establishments for one and the same Department, simply because the toddy and arrack form separate Sub-Items of the Excise Revenue. The arrack establishment was formed at a time when the District was Contract system under which the toddy Revenue was derived, rendered no establishment therefor necessary.

3. There can be no two opinions that under the present improved system of arrack and toddy administration, more efficient supervision of the details

details of the working is a very great desideratum.
I fully admit the correctness of your observations
in para 3 of the memorandum

4. As regards the details of the proposed
scale of establishment, I have only one point to suggest.
The pay of Rs 7 provided for the 2nd class Sub-In-
spector is not commensurate with the designation and
responsible duties of the office; as it would place the
Sub-Inspector's status on a par with a 2nd class
Excise Peon for whom also you provide the said sum
of 7 Rs. I would therefore recommend that instead
of 4 first class Sub-Inspectors at Rs 10+5 and
8 second class Sub-Inspectors at Rs 7+3, it may
be sufficient to maintain only one grade of 12
Sub-Inspectors at Rs 10+5 each. This would
raise your total of Rs 5324 to 40 Rs more.

5. I deem this to be a fitting opportunity
to request your attention to the marginally noted
Correspondence in which you expressed your
opinion as to the desirability of having a separate
Assistant Commissioner for the Excise Department,
and I communicated to you my full concurrence
with that opinion. The draft Rules under Con-
sideration are of course sound in theory and
consistent with the spirit of the Excise Laws in
force. But these Rules place much power in
the

the hands of the Subordinate Excise Officers in assimilation to the Police Officers of the equal grade. Looking to the nature of these powers, I am afraid that they will be abused by the subordinate officers, if their actions are not fully and frequently checked and controlled by a special officer.

6. An Assistant Commissioner tied up as at present by Criminal, Revenue and other office work at Head Quarters cannot at all be expected to move about the District frequently and exercise that degree of personal control which is highly necessary to correct the evils anticipated and carefully watch the interests of the Government and the public. I would therefore recommend the intortainment of 8 Excise Assistant Commissioners corresponding with the number of the Districts on 3 different grades viz 1 first class on Rs 300; 2 second class on Rs 250 each, and 5 third class at 200 Rs each. The total cost would amount to Rs 1800 per month, or Rs 21600 per annum. If this item of the charge be added to the total amount of your proposition, the aggregate cost of the entire executive establishment would come to Rs 55,438 per annum. Calculating upon the Excise Revenue of the Province for the last official year viz Rs 3,00,636

as

as given in the Dewan's Dasserah speech the cost
would only be Rs 2 3/4 per cent.
of the income, which I submit is not much.

Sir

With reference to your docket No. 3484-91,
dated the 16th February 1895, I have the honor
to submit the accompanying copy of Memo of
the Excise Assistant Commissioner of this
District, proposing a slight alteration in the
extent of the two ranges into which the Dis-
trict is to be divided. It will be seen from
the statement which accompanies the Memo
that in point of importance the amount of
Revenue and the number of groves and shops
of Arrack, Toddy and Drugs the division
suggested in the Excise Commissioners pro-
position statement would be very unequal.
I would therefore recommend for adoption the
alterations proposed by the Excise Assistant
Commissioner. It is noted that in the scheme
for amalgamation one Tester or Inspector
and two assistant Testers will be thrown
out of service. They will have to be found
employment in the same Department elsewhere

ot

or some other Department in this District

2. The Memo of the Excise Commissioner is so exhaustive that it is not possible to make any suggestion. I would therefore content myself with one remark namely that so long as the Excise Department of the District is not placed under the direct and immediate supervision of an Assistant Commissioner, specially and exclusively appointed for the purpose to help the Deputy Commissioner, the work cannot be carried on satisfactorily by the Deputy Commissioner, overwhelmed as he is with other and equally pressing matters. An Excise Assistant Commissioner now exists in the person of the Treasury Officer; but the Treasury Officer is not a working Officer and it is highly desirable that the District Excise Assistant Commissioner should move frequently. Frequent inspection of date groves is of the highest importance in securing the permanance of this item of Excise Revenue. I beg to state my experience elsewhere that — unless these groves are carefully conserved, there will be a fall in Toddy Revenue and though that fall may to some extent be compensated by a corresponding rise in the sales of arrack the exchange of Toddy for Arrack will be by no means

means desirable. As it is, I do not think that
54
Toddy ~~groves~~ groves received the
attention they imperatively require. The sales
being annual entail an amount of reckless tapping
which is scarcely known to the higher officers or at
any rate is not adequately prevented or punished.

I have &c.

Memo.

For reasons stated in the Excise Commissioner's
Memorandum, the proposed amalgamation of the
Arrack and Toddy branches is indeed necessary
as it will ensure efficient supervision by facilitating
frequent inspection of shops and groves
and protection of the interests of the Government
and people by successful prevention of dilution
and adulteration and other malpractices.

The division of the District into two Ranges
as proposed by the Excise Commissioner
appears to me to have been based upon the
area in square miles of Taluks but not on
the number of Toddy and Arrack shops and
groves

propos^d & which is in each Taluk. This division, I beg to submit, makes the Haffsa Range disproportionately large, and entails consequently a disproportionate increase of work on one of the Supervisors. I beg therefore to propose the division of the district into two ranges as detailed in the subjoined Statement, and as this division is founded upon the area, No of shops, Venams &c and revenue, I am sure it will meet with the approval of the Excise Commissioner. The present proposal recommends the transfer of Chinnarayapatna Taluk from the Haffsa to the Arkalgud Range and divides the No of inspectors equally between the Supervisors.

There are only two Taluks in the District which contain a large number of Paddy groves and they are Arsikere and Chinnarayapatna. Arsikere is in the first range and Chinnarayapatna is in the second range. If the Head Quarters of the second range which is Arkalgud as proposed by the Excise Commissioner, is changed into Hole Narsipur as now proposed, the Supervisor attached to the second range can inspect the Paddy Groves in the Chinnarayapatna Taluk with greater facility and more often

To

The Excise Commissioner
in Mysore,

Sir,

I have the honor to acknowledge
the receipt of your docket N^o $\frac{3330-7}{14-8}$, Dated
8th

8th February, last, writing opinion on the proposed amalgamation of the Aprack and Toddy branches of the Executive Excise Staff, as explained in Memorandum N^o 2342-49, dated 15th November, 1894, forming enclosure thereto. ¹⁰³

It will certainly be an advantage to amalgamate the Aprack and Toddy establishments. There is however one disadvantage in forming a separate service of the Toddy and Excise Officials, namely, that they will look for all guidance to the Superior Officers, in the Department, and lose touch with the local revenue officers. This should be prevented, and the Department should be so organized as to secure the efficient control of the Amildars, and other higher officers of the Revenue Department, over the smaller excise officials in the Mofussil.

The proposed allotment of the officials for the Mysore District, appears to be sufficient. I think however, that an additional Inspector, on Rs 20+10 is wanted for the Mysore City, making two Inspectors for the town alone, as there are about 20 Aprack shops and 10 Padakhanas, besides ganja and foreign liquor shops. The

The Paddy and Aprack revenue of the town is very heavy, and these Inspectors will have to attend to the prompt collection and to exercise a close supervision of the shops and attend to consignments of Paddy in order to check abuses, and increase revenue.

I would also recommend that the Supervisors of Nanyangode and French Rocks, be made subordinate to the First grade Supervisor at Mysore, so as to secure uniformity of action. The latter will practically be the chief adviser in Excise matters, to the Deputy Commissioner, and the Excise Assistant Commissioner, and will be able to bring to their notice, all matters of importance in the District administration. His office work will not, however, be heavy as the Excise clerk will attend to all current office work and correspondence. As he will thus have some additional work, and as his work in the town will be very heavy, it is desirable to add Gundlepet Taluk to Nanyangode range and Malavalli to that of French Rocks.

As the work of these officials is one of great responsibility and trust, and as it is on their constant and efficient supervision the Success

Success of the Department depends, and as each
~~range~~ extends over several
Talukhs, and as they have to travel almost constant-
ly under great privations, the present allowance of
Rs 15/- is very inadequate, and may be raised to
Rs 20/- per mensem.

At the same time, I beg to remark
that, according to paras 20 and 24, of the draft
Circular, each grove and plantation within his range,
has to be inspected by the Supervisor, at least once
in ten days; but this appears to me to be too short
a period for thorough and careful inspection.
Considering the large number of groves within
each range, in this District, it is desirable to
extend the period to 20 days, so that the Supervisor
will be able to inspect once in every month, all
the groves and plantations in his charge.

I have &c.

Sir,

With reference to your docket No. $\frac{3330-7}{148}$,
dated 8th February 1895 forwarding for an
expression of opinion a Memorandum regarding
the proposed amalgamation of the Aprak and
Toddy branches of the Excise Department, I
have the honor to state that I have already
communicated my views on the subject and
it is needless to repeat them here.

2. As regards the establishment proposed
for this District I beg to state that the 14
Inspectors are too many and the amount of
work in various Talukhs will not require more
than 12 hands to do all that is expected of them.
There are at present 10 Toddy Inspectors and 3
Deputy Inspectors of the same rank and pay as the former—
or altogether 13 hands are available for employ-
ment in the District.

The following table shows the
establishment

re-establishment proposed by the Excise Com:
 reasons and modifications suggested by me.

4. Under the above proposals no hand need be sent from Bangalore to the Kolar Taluk as

stated.

stated in the Memorandum as the Supervisor attached to the Head Quarter Taluk will inspect the Kasba and out lying shops for about ten days in the month. Bagipulle Taluk also does not require 2 hands as Gudibanda is a small Range and has but few groves and shops to require a separate Inspector. But as this extra hand cannot be provided for otherwise he may be retained in the Sub-Taluk as a tentative measure to be absorbed when a vacancy occurs in the other Taluks.

5. The three Assistant District Officers have to be provided for. This arrangement involves a difficulty as these officials will not be able to cope with the amount of Taluk clerical work which is difficult and arduous, their original selection having been made with regard to their competency for the Executive line. Besides the Votwa Subaddies of Taluks were nominated so far back as February 1894, and it would be unfair to remove them from their acting posts, since they have been doing their work satisfactorily. I would suggest that these Assistant District Officers be attached to three of the Inspectors instead of peons until they are otherwise provided for when suitable vacancies occur. Hence no provision is made for 3 peons for 3 Inspectors for

for the present.

Under the ^{contingent} contemplated amalgamation of both the branches the Inspectors will be placed under the direct orders of the Amildars. The result of this system would be considerable increase of correspondence which is already heavy between this office and the Daluhs. I learn that 3 and 4 clerks are deputed to do the Excise work in the Mysore and Bangalore Districts respectively and this District being 3rd in importance in point of its Excise Revenue in the Province the appointment of an additional hand for office work is very desirable. The timely submission of accounts, prompt issue of orders, checking the Deans returns &c have to be attended to. One accountant has been solely deputed for the preparation of accounts in the Treasury Department. The only clerk attached to my office cannot conveniently attend to accounts and correspondence.

7. Under these circumstances I request you will be good enough to obtain sanction of Government for the appointment of a Clerk on Rs 15/ to attend to the additional work and for increasing the pay of the present Clerk from Rs 25 to Rs 30 out of the savings effected from the amalgamation.

If

If the above proposal is sanctioned there will be a saving of Rs 3 for the present and further saving of Rs 12 after the Assistant Posters are given other appointments and 3 persons at Rs 6 each appointed instead

I The circular appended to the memo does not in my opinion require any alteration.

N^o 257

Sir,

With reference to your office N^o 3330-7
dated 26-195¹⁴⁸₈₋₂₇₅, I have the honor to state that
the proposal to amalgamate the Arack and
Doddy branches of the executive staff is a
good one and is supported by several
weighty

weighty reasons nearly all of which have been fully set out in the memorandum drawn up by you - These two branches are so intimately connected with each other that they might advantageously be constituted into a single Inspection Staff"

2. The proposition statement has been prepared with due regard to the requirements of the several parts of the Province and may therefore in my opinion be generally adopted without any substantial modifications. Speaking however for my District alone I beg to observe that it is not an unimportant one from an Abkari point of view and that if possible it is desirable to give the Head Quarter Taluk a second grade Inspector in addition to a fourth grade one. It is also a question for consideration whether the Abkari service should not be made a provincial one. Promoting officials have at present no chances of advancement unless vacancies occur in the Districts in which they are employed. Such vacancies may occur oftener in some Districts than in others. This leads to some men getting their promotion faster than others equally good and even better.

3. A slight error which has crept into the proposition statement needs rectification.

The

The Inspector attached to the Dargangere Taluk gets $20+10 = 30$ Rs a month and not $15+10 = 25$ Rs. There are thus 6 men in the District on $20+10$ and not 5 only. It does not seem desirable to reduce this number.

4. The draft circular proposed to be issued seems to me unnecessarily elaborate. It is certainly not intended to be a complete manual of Excise law. A good knowledge of the Acts, Rules & pertaining to the Excise Department is indispensable and cannot be superseded by a familiarity with the instructions contained in the draft circular. The powers, duties, offences & other provisions &c as briefly mentioned in the circular are neither fully described nor do they seem quite exhaustive. I would therefore replace paras 2, 3, 4 and 5 of Section I General, by a general para to the effect that all Excise Officers should acquire a thorough insight into their work by a careful study of the Excise and Opium Acts, and of all subsidiary Rules and orders in force on the subject of Excise Administration.

5. It does not seem possible for the Supervisor to inspect "at least once in 10 days" every bonded Depot every arrack Farm Depot, every wholesale Ganja Depot and every grove and plantation as required by paras 16, 20, 21 and 24 of Section II. 150 miles is all that he

he can reasonably be expected to travel in
~~the~~ month. Let us take ^{the case}
of the Supervisor in charge of the Chotalor-coy
Range. It is impossible for him to inspect the
Chittaldong, Jagalur, Chellakere and Molkalmur
Talukhs and come back to Head Quarters in a
shorter period than one month. He will then have
travelled more than 200 miles. Even then he
cannot find time to inspect all the hundreds
of groves and plantations situated there.

to insist upon a strict compliance with this would
be to require him to accomplish an impossibility.
The same remark holds good in the case of the
other Supervisor in charge of the Stalalhere Range.
I believe a similar difficulty would arise in all
the other Districts also. I am of opinion that in
the case of the several kinds of Depots mentioned
above a monthly inspection should be required;
while in that of groves and plantations, as in the
case of shops frequent inspections should be
insisted upon with a proviso that no grove or
plantation should be left un-inspected for a
longer period than 3 months. This would be a
fairly workable rule while the other would not.

6. It is not clear whether the several
Supervisors attached to each District should

all be located at the Head Quarters of the District or whether each is to have his Head Quarters at some convenient place in his own Range.

7. The proposed distribution of the Taluks of this District between the two ranges into which it will be constituted, seems to require reconsideration. I would give the Supervisor of the Chitaldroog Range, jurisdiction over the Taluks of Chitaldroog, Hiriyoor, Chellakere and Holakalmuru. The other range may be called Davangere Range and comprise the Holalkere Taluk including Hosdurg Sub-Taluk, Davangere Taluk including the Harihar Sub-Taluk and the Jagalur Taluk. This appears to be a more convenient arrangement than the one proposed by you.

8. The Deputy Amildar is nearly as important and responsible an official in his range as the Amildar is in his Taluk. I would therefore add "and Deputy Amildar" wherever the words "the Amildar" occur. I would under no circumstances divert the Deputy Amildar of the duties, powers and responsibilities which now devolve upon him in Breeze matters.

9. The Akharu Inspector now sends his diaries, crime sheets and charge sheets to his Amildar or Deputy Amildar, who with his

his remarks thereon passes them on to the Excise Assistant Commissioners, who checks the same, and disposes of them under the orders of the Deputy Commissioners and with the assistance of the Larogah. The draft circular proposes that these papers should be forwarded through the Amildar or Deputy Amildar to the Excise Superintendents who should submit the same with his remarks to the Deputy Commissioners. This change is likely to lead to discontent, friction and inconvenience. The matter is an important one and seems to deserve reconsideration. The Excise Assistant should not be ignored or the Deputy Commissioners overburdened with work which he may not be able to satisfactorily perform. Nor is it desirable that the Superintendents should be made the medium of communication between the Head of the Taluk and the Head of the District.

10. As regards the Inspector too, the inspection work required by the circular is a great deal more than could possibly be done - I would suggest that the inspection of Depôts and shops be insisted on once a fortnight and of groves and plantations once a month.

11. Subject to these remarks I am of opinion that the scheme propounded by you

is calculated to ensure a more efficient administration of the Excise Department than at present and may therefore be submitted for sanction of Government.

I

The Excise Commissioner
in Mysore,
Bangalore.

Sir,

With reference to your Office N^o 3330-7
dated 8th Ultimo, calling for my opinion on the
proposed scheme for the amalgamation of the
Aprack and Toddy Establishments into one
Inspection Staff, I have the honor to state that
I have always been of opinion that the amal-
-gamation of the Aprack and Toddy Establish-
-ments will, while economising expenditure to a
certain

Certain extent augment the efficiency of the service to a very great extent.

The Excise Commissioner has not thought of the amalgamation a moment too soon. I have not the slightest hesitation in supporting the proposed amalgamation. As regards the details, however, I think there is some room for improvement.

Ranges.

It is proposed to divide the District, the City and the Civil and Military Station into four ranges. - I think the Head Quarter Range may include the Taluks of Bangalore and Near-mangala. With a good staff of Inspectors the Head Supervisor ought to be able to go out into these two Taluks occasionally. Besides, the Amildars will also supervise the work of the Inspectors. What is called the Hoskote Range can easily take in the Doddaballapur Taluk. This readjustment of Taluks does the pay of a Supervisor and his person.

Supervisors.

I am opposed to a large number of grades. It is proposed to have six grades in all. I would limit the grades to 3:- the

Head.

Head Supervisor and two other grades
one on Rs 75/ each and the other on Rs 50/
each. As regards the Head Supervisor,
I would have the pay a little more elastic.
The man has hardly anything beyond
to look forward to. Let him begin with
100 Rs rising to 200 Rs by periodical
increments. Horse- Allowance, as proposed,
I see no objection to

Inspectors.

I would only have two grades
30 Rs and 20 Rs respectively ^{with} 10 Rs
as Horse- Allowance.

Sub-Inspectors

I would not have this grade
at all it would only ^{serve} to give a pre-
mum to corruption. Small pay and
large powers are dangerous.

As regards the number:-

City and Station

6 Inspectors are quite ample if
not too many. I would divide them two
of 30 Rs and four of 20 Rs. These with
the Head Supervisor and the persons proposed
will quite do.

Bangalore Taluk

When City is excluded one
Inspector will do for the rest of the Taluk.

Moskote Taluk

One Inspector will do.

Anekal Taluk

Ditto.

Dodballapur

I think two may be needed.
Thus for the District there

will

will be 13 Inspectors. Four of them may be of the 1st class and the rest of the 2nd class. The Excise Commission does not provide for Mutsaddis. The existing staff will have to be kept up. In conclusion, I have but one more point to which I must draw attention. It is the supervision of the Amildars which is, I need hardly say, very beneficial to the Department. Whatever changes may be introduced the authority and responsibility of the Amildar should not be disturbed.

I have &c

EXCISE COMMISSIONER'S OFFICE,
Bangalore, dated 15th November 1894.

MEMORANDUM OF THE EXCISE COMMISSIONER ON THE
PROPOSED AMALGAMATION OF THE ARRACK AND
TODDY BRANCHES OF THE EXECUTIVE
EXCISE STAFF.

1. The success of the present system of administration of Excise Revenue depends mainly on the constant, efficient, and honest inspection of Bonded Depôts and Farm Depôts of Arrack, Retail Arrack and Toddy Shops, Wholesale and Retail Shops of Drugs, Foreign Liquor Shops, Country Beer Taverns, Date Groves and Plantations, &c. The interests of both the Government and public have to be protected by enforcing the sales of undiluted and wholesome liquors and unadulterated drugs to the public, and by preventing and detecting malpractices of every description.

2. The present Arrack Staff is too weak to do justice to the requirements of the work relating to Arrack and Drugs. It has been noticed that Arrack Depôts and Shops in some taluks had been inspected not more than once a quarter, for no fault of the inspecting staff; because there being only one Tester for four or five taluks, and in some Districts one Tester for the whole District, the Testers can scarcely be expected to inspect each Arrack and Drug Shop oftener than once a quarter. Such inspection is not worth much for obvious reasons.

3. Under the Excise Laws and Rules, every Excise Officer is bound to perform all the duties connected with the administration of Excise Revenue, namely, prevention and detection of crime, and inspections relating to all items of Excise Revenue, as well as the enforcement of punctual and regular payment of all Government dues. But the Arrack and Toddy Establishments being now separately and distinctly constituted, the members of the Arrack Staff do not attend to the duties concerning Toddy Revenue and *vice versa*. A Tester inspecting Arrack Shops takes no notice of Toddy Shops situated only a few yards from the former, and similarly a Toddy Inspector inspecting Toddy Shops is equally inattentive to Arrack Shops situated in one and the same place. I have also reason to believe that the members of the respective branches are indifferent to the irregularities which may come to their knowledge during their tours, simply because they do not concern the particular branch to which they belong, or because they are not conversant with the rules of such branch. It is also believed that the members of one branch do not care to study the rules of the other; and that they do not co-operate with one another, but rather resent interference as being uncalled for. Under such circumstances, the amalgamation of the Arrack and Toddy Establishments and constitution of the same into one Inspection Staff for all items of Excise Revenue, as in other parts of India, appears urgently called for, not only to obviate the present anomalous and unsatisfactory state of things, but also to render the inspection work more effectual and satisfactory. Under such arrangement, the Abkari Inspectors in each of the taluks and sub-taluks (some of which taluks containing numerous date groves and shops have two Inspectors), can frequently inspect Arrack and Drug Shops and Depôts without prejudice to the Toddy work, and can also enforce punctual payment of Arrack and Toddy Khists by examining the various Farmers' Chellan Books and by promptly taking necessary action under the rules, if they found that any khists had not been paid. I am given to understand that in taluks which have no date groves, or in which Toddy Vend Farmers are one or two, or very few in number, the Toddy Inspectors have very little work, so that they are utilized by Amildars

for other work in taluks. The proposed amalgamation will not only give them sufficient work, but also render the preventive and detective work, as well as the collection of revenue, pertaining to Arrack, Toddy and other Liquors and Drugs, more efficient and satisfactory. [When I first submitted my Proposition to Government, I requested the Deputy Commissioners to instruct Toddy Inspectors to learn from Arrack Testers the work relating to Arrack and Drugs. Accordingly, they have been learning it. The Testers on the other hand have been getting an insight into Toddy work.] The requisite supply of hydrometers, &c., for the use of the Inspectors in taluks has been obtained from England.

4. In my Proposition Statement hereto appended, I have made adequate provision for the requirements of each taluk, the present Arrack Testers being located in places where extra hands are wanted, and their designation being changed to that of Inspector. For the supervision of the work of Inspectors, I have divided each District into several convenient Ranges, allotting a Supervisor to each Range, and the designation of the present Toddy Darogah being changed to that of Supervisor. The amalgamated Inspection Staff, as proposed by me, will consist of :—

				Rs.
1	Head Supervisor on	...	...	150 + 25 = 175
1	Supervisor, 1st grade, on	..	...	80 + 15 = 95
1	Supervisor, 2nd grade, on	...	...	75 + 15 = 90
1	Supervisor, 3rd grade, on	...	...	60 + 15 = 75
6	Supervisors, 4th grade, at	...	...	50 + 15 = 350
10	Supervisors, 5th grade, at	...	...	40 + 15 = 550
2	Inspectors, 1st grade, at	..	...	35 + 10 = 50
4	Inspectors, 2nd grade, at	...	...	25 + 10 = 110
36	Inspectors, 3rd grade, at	...	...	20 + 10 = 1,080
67	Inspectors, 4th grade, at	...	..	15 + 10 = 1,675
4	Sub-Inspectors, 1st grade, at	..	...	10 + 5 = 60
8	Sub-Inspectors, 2nd grade, at	...	...	7 + 3 = 80
129	Peons, 20 at Rs. 8, 15 at Rs. 7, and 94 at Rs. 6	...	...	829
270			Total	5,329

The aggregate cost of the present Arrack and Toddy Executive Establishments is also Rs. 5,329, so that the proposed amalgamation entails no additional charge.

5. If the above scheme comes into force, some Assistant Testers will lose their appointments. On the submission of my Proposition originally to Government, the Deputy Commissioners were requested to keep some appointments open to them in their respective Districts, so that there will be no difficulty to provide for the Assistant Testers who will be thrown out of employ.

6. The remarks of the Deputy Commissioner of the Kolar District, who has already advocated the amalgamation, are quoted below :—

In the Deputy Commissioner's letter No. 1393—885, dated 6th September 1894.

“ With a view to securing better and frequent inspection work than is possible at present, the undersigned begs to urge once more the advantage of amalgamating the Arrack and Toddy branches of this Department. This would at once lessen the extent of their Ranges and enable them to visit the shops oftener. At present, there is not enough of work for Toddy Inspectors in certain of the taluks; and it is desirable to make them look after the Arrack Shops and Depôts also. As this arrangement necessitates no additional expenditure to Government, the undersigned hopes that the proposal will be duly considered by the Excise Commissioner.”

In the Excise Administration Report of the Kolar District for 1893-94.

“ There are at present 2 Assistant Supervisors and a Daroga with 10 Taluk Abkari Inspectors and 3 Testors. By dividing the work among these men after amalgamating the Toddy and Arrack Branches, more efficient supervision of the work can be ensured, instead of having two separate establishments for one and the same Department.”

L. RICKETTS,

Excise Commissioner in Mysore.

EXCISE COMMISSIONER'S OFFICE, }
 Bangalore, 29th October 1894. }

L. RICKETTS,
 Excise Commissioner in Mysore.

DRAFT.

Excise Commissioner's Circular No.

dated

In exercise of the powers conferred by Rule XXVIII in Government Notification No. 495, dated 30th March 1892, and by Rule VIII in Government Notification No. 11813—R. F. 233-92, dated 14th January 1893, the Excise Commissioner prescribes the following subsidiary Rules:—

SECTION I.—GENERAL.

1. *Excise officers to be restricted to Excise duties.*—All the members of the Excise Department should be confined exclusively to the duties connected with the administration of Excise Revenue.
2. *Nature of duties of Excise officers.*—Under the provisions of the Excise and Opium Acts, the duties of Excise officers consist of the prevention and detection of offences against those Acts, and of the enforcement of the punctual and due payment of Excise Revenue (*vide* Section 24 of the Excise Act).
3. *Powers and duties of Excise officers under Excise and Opium Acts.*—The powers and duties of Excise officers under the Excise and Opium Acts, are the following:—

Under the Excise Act.

- (1) To inspect shops (section 26).
- (2) To arrest persons carrying any spirit, fermented liquor or intoxicating drug liable to confiscation, and to seize such spirit, liquor or drug (section 27).
- (3) To arrest persons in possession of articles liable to confiscation and to seize such articles (section 28).
- (4) To search on information of illicit manufacture or possession or concealment of any article liable to confiscation, and to arrest the occupier of the place with all other persons concerned in such manufacture or possession or concealment (section 29).
- (5) To search at night upon Deputy Commissioner's special warrant (section 31).
- (6) To report to official superiors arrests and seizures or searches within twenty-four hours thereafter, and to take persons arrested to Magistrate with all convenient despatch (section 32).
- (7) To produce persons arrested or articles seized upon Deputy Commissioner's warrant before such Deputy Commissioner within twenty-four hours after the arrest or seizure (section 33).
- (8) To institute prosecution of offences punishable under the Excise Act, before the expiry of six months next after the commission of such offences (section 47).

Under the Opium Act.

- (1) To enter, arrest and seize, on information that opium is unlawfully kept in any enclosed place (section 14).
- (2) To seize opium in open places, and to detain, arrest and search any person who is believed to be guilty of any offence against the Opium Act (section 15).
- (3) To assist each other (section 17).
- (4) To forward without delay persons arrested and things seized to the nearest Police Station, and persons arrested and things seized on warrant to the officer who issued such warrant (section 20).
- (5) To report arrest and seizure to immediate official superiors within forty-eight hours next after such arrest or seizure (section 21).

4. *Offences punishable under Excise and Opium Acts.*—All Excise officers should learn by heart the following list of offences punishable under the Excise and Opium Acts :—

EXCISE ACT.

SECTIONS.

Nature of Offence.

XIII.—Sale of Opium other than Government Opium, and sale of Opium in excess of authorized retail quantities.
XIV.—Sale of Opium without a license ; breaches of Rules or conditions of license other than above.
18. Vexatious search, seizure, or arrest by Excise officer.
5. *Other important provisions.*—Excise officers should also pay particular attention to the following provisions in the Excise and Opium Acts :—
 - (1) Offences against the Excise Act may be tried by a Magistrate of the first or second class, or, when specially empowered by the Magistrate of the District, by a Magistrate of the third class [section 3 (c)].
 - (2) Offences against the Opium Act may be tried by a Magistrate of the first class, or, when specially empowered by the Local Government, by a Magistrate of the second class (section 3).
 - (3) Manufacture of spirit and fermented liquor without a license, is prohibited (section 5 of Excise Act).
 - (4) No spirit shall be removed from any licensed Distillery or a Bonded Warehouse or Depôt attached to such Distillery, until duty has been duly paid (section 7).

(5) Sale of spirit, fermented liquor and drugs without license is prohibited (section 12).

(6) No person shall have in his possession without license or pass any quantity of spirit or fermented liquor or drugs larger than the following (sections 21 and 22):—

Foreign liquors	...	2 imperial gallons or 12 reputed quart bottles.
Country spirit	...	1 seer.
Country fermented liquor	...	4 seers.
Bhang or any preparation thereof	...	$\frac{1}{4}$ seer.
Ganja or any preparation thereof	...	5 tolas.

(7) Import of spirit manufactured at any place in India beyond the limits of Mysore is subject to duty (section 23).

(8) No complaint of an offence against the Excise Act can be entertained by Magistracy unless it be made within six months after the commission of the offence (section 47). *There is no similar restriction in respect to prosecutions under the Opium Act.*

(9) Any person may possess without license or pass three tolas of Government Opium (Opium Rule IV).

6. *Collection of Excise Revenue.*—The responsibility for the collection and accounting of the Excise Revenue of each District rests with the Deputy Commissioner. Under Section 25 of the Excise Act and Section 23 of the Opium Act, any sum due to Government under those Acts, or under any rules made thereunder, may be recovered as if it were an arrear of Land Revenue. Under Government Notification No. 13479—R. 1629-92, dated 29th January 1893, the Deputy Commissioner has been authorized to appoint the following persons for the collection of Excise Revenue:—

(1) All Assistant Commissioners.

(2) Amildars, Deputy Amildars, Taluk Sheristadars, Shekdars and Abkari Inspectors.

(3) With the sanction of the Excise Commissioner, any other official.

7. *Recovery of correct amount of duty.*—When duty on account of arrack or other country spirit together with the prescribed Chellans is presented in Taluk Treasuries, the Amildar or Sheristadar shall check the figures entered in the Chellans, and receive the amounts of duty exactly equal to the quantity of liquor therein shown, at the prescribed rate, and then duly acknowledge the payment in the Chellans under his seal and signature, and also under the signatures of the Nagadi Gumasta and Shroff.

8. *Duty of Distillery Officer or Bonded Depôt keeper on production of Chellans and Indents for liquor.*—On the production of Chellans in proof of prepayment of duty into Government Treasuries, and of Indents for supplies of liquor, the Distillery Officer or Bonded Depôt-keeper, as the case may be, shall also duly check the figures, and after satisfying himself that the duty received in Treasuries for the supplies of liquor indented for is quite correct, he shall issue liquor exactly equal to the amount of duty paid into Treasuries as per Chellans. Any error or irregularity, detected in the Chellans, shall at once be reported to the Excise Commissioner by the Distillery Officer, or Bonded Depôt-keeper.

9. *Recovery of all other items of Excise Revenue entrusted to Amildars.*—The immediate collection of all other items of Excise Revenue is entrusted to the Amildars of the respective taluks, acting under the orders of the Deputy Commissioner, and the Amildars are bound to make periodical reports of all outstanding balances to the Deputy Commissioner without delay, for orders. If they fail to do this, they will be responsible for any consequent loss to Government. The responsibility of issuing promptly the requisite orders for taking necessary action for the recovery of a balance, which has been reported, rests with the Deputy Commissioner (*vide* para 6 of Rule XXI in Government Notification No. 495, dated 30th March 1892, and para 7 of Rule V in Government Notification No. 11813—R. F. 233-92, dated 14th January 1893).

10. *Points to which Amildars should pay particular attention.*—Amildars should also pay particular attention to the following points:—

- (1) That the Registers and Ledgers relating to Arrack Vend Farmers and Toddy Vend Farmers, are neatly written and kept up to date in the prescribed printed forms.
- (2) That the Demand, Collection, and Balance Statements of Excise Revenue are correctly and punctually prepared and submitted to the Deputy Commissioner.
- (3) That the Register in form K of Passes relating to liquor issued to Bonded Depôts from the Government Central Distillery, Bangalore, is duly maintained, and that the Passes therein entered are duly dealt with in accordance with Rule XXIV in Government Notification No. 495, dated 30th March 1892.
- (4) That (in the Bangalore District) the Register in form O of Rahadaris relating to liquor issued to Farmers direct from the Government Central Distillery, Bangalore, after prepayment of duty, is duly maintained, and that the Rahadaris therein entered, are duly dealt with in accordance with Rule XXV in the aforesaid Notification; and that a similar course is adopted in regard to Rahadaris concerning double distilled spirits issued direct from the Distillery to Foreign Liquor shop-keepers throughout the Province.
- (5) That in regard to the issues of liquor from Bonded Depôts to the Farmers (in the remaining seven Districts) and also to Separate Shop-keepers in the towns of Bangalore and Mysore and Kolar Gold Fields, Extracts in form N are duly received daily from the Mutsaddis in charge of Bonded Depôts, and entered in the said Register O, and dealt with as per aforesaid Rule XXV.
- (6) That all the Chellans of Arrack and Toddy Rentals are properly received, booked and duly dealt with under the rules relating to them (*vide* para 5 (2) of Rule XXI in Government Notification No. 495, dated 30th March 1892, and 6 (2) in Rule V in Government Notification No. 11813—R. F. 233-92, dated 14th January 1893).
- (7) That the Inspectors do their inspection work satisfactorily, and submit their Diaries, Statistics, &c., regularly and punctually.
- (8) That village officials carefully look after date groves and plantations.

11. *Other important duties of Amildars.*—The Amildar should also make himself generally acquainted with the working of the Excise arrangements in his Taluk. For instance, he should know the localities of licensed shops of all kinds, and should watch the consumption of Arrack, Toddy, Opium and Ganja, particular attention being paid to the danger of illicit distillation, importation of contraband Liquor, Opium and Ganja smuggling and of clandestine cultivation of Poppy and Ganja hemp. He should assist the Excise Supervisor so far as lies in his power, and should consult and mutually assist each other on all possible occasions. He should instruct the Inspectors to readily respond to the calls of the Excise Supervisor whenever he may want them to accompany him in his tours of inspection or otherwise. By co-operating with each other, the Amildar and Supervisor will prove of much greater service to the Deputy Commissioner than if they work separately, each going his own way.

SECTION II -- DUTIES OF EXCISE SUPERVISORS.

12. *Supervising duties.*—Foremost among the duties of the Supervisor is that of supervising the work of Inspectors and village officials, being constantly on the move in all parts of his Range, inspecting Depôts and Shops of all kinds, Date, Palmyra and Bagni groves and plantations, tapping of the trees therein, and picking up information on all matters which affect the Excise administration of his Range. He must arm himself with detailed information on all points relating to the working of the Excise arrangements of his Range, so that he may be in a position to bring to the Deputy Commissioner's notice any defects, the removal of which would contribute to the improvement of the revenue, or promote the convenience and well-being of the people.

13. *Extent of travelling.*—He must travel monthly not less than 150 miles, spending not less than twenty days in each month in travelling about his Range and away from head-quarters. The Head Supervisor in charge of the Head-quarters Range should inspect the Government Central Distillery, Bangalore, not less than once in three days, and the depôts and shops of all kinds in the Civil and Military Station and City once at least every alternate day. The Excise Commissioner may send him to any part of the Mysore State for any special or urgent enquiry or inspection.

14. *Diary.*—The Supervisor should keep a Diary Register in the prescribed printed form, in which his daily movements shall be briefly recorded together with the results of his inspections and enquiries. At the end of each fortnight, an extract from such register should be submitted to the Deputy Commissioner in the prescribed printed form.

15. *Examination of Excise Registers, &c., kept in Taluk offices.*—The Supervisor is authorized to assist Amildars in examining the various Registers, Ledgers and accounts relating to Excise revenue kept in Taluk offices in prescribed forms. He should examine these Registers and accounts twice a year at least. Before proceeding to examine them, he should communicate with the Amildar concerned of his intention and obtain his order for the production thereof by the officials in immediate charge of them. He should report the results of his examination to the Deputy Commissioner without delay, besides noting the same in his diary.

16. *Inspection of Arrack Bonded Depôts.*—Every Arrack Bonded Depôt should be inspected by the Supervisor at least once in ten days. In examining Bonded Depôts, the Supervisor will see that the prescribed Registers and Ledgers are duly maintained, and that all the Returns, Statements, "N" extracts, Chellans, &c., in prescribed forms have been punctually submitted to the Excise Commissioner, Deputy Commissioner, Amildars and himself. He should pay particular attention to the following points:—

- (1) That the Government Register of Receipts of liquor from the Central Distillery and issues to Farmers, and Separate Shop keepers, if any, and Ledger showing issues to each individual Farmer and Separate Shop-keeper, if any, has been neatly written and maintained up to date.
- (2) That the stock of liquor in the depôt at the time of inspection, excluding "Bung wastage," correctly tallies with the entry in the above register.
- (3) That the amount of duty and price shown in the Register as having been prepaid in the Taluk Treasury, on account of the liquor issued to Farmers, and Separate Shop-keepers, if any, is correct according to the prescribed rates.
- (4) That the Register and Ledger showing receipts of liquor on account of each Farm, and issues to shops, have been duly kept up; and that the entries therein made, correctly compare with those in the aforesaid Government Register and Ledger.
- (5) That no Government liquor has been issued without receiving the Treasury Chellans in proof of prepayment of duty and price.
- (6) That the "Bung wastage" and "Stand wastage" charged to Government, and Farmers, respectively, do not exceed the usual average rate.
- (7) That bottles of samples of liquor are duly sealed and issued with consignments of liquor to each shop.
- (8) That the necessary stock of liquor is maintained both by the depôt-keeper and by all the Farmers attached to the depôt.
- (9) That all the rules and conditions are duly acted up to.

17. In view to satisfy himself that no liquor has been issued without prepayment of duty and price in the Taluk Treasury, the Supervisor should not only compare the issues in the Government Register with the "G" Chellans received in the depôt, but should also note the total amount of duty and price and compare it with the Taluk Treasury accounts. He should also carefully examine the Government stock of liquor, as well as that of the Farmers and verify that the quantities tally with the entries in the accounts.

18. He should frequently and unexpectedly present himself when any cask of liquor received from the Central Distillery is opened and "Bung wastage" is added; and should take note of such wastage to enable him to see that the entries in the Register do not exceed the average percentage. He should also be present from time to time when all the liquor in any cask belonging to Farmers, has been wholly issued, and take note of "Stand wastage" so as to be able to check that the entries in the Farmer's Register do not exceed the average percentage. He should test the liquor in casks on tap or in jars, &c., and note the strength, taking needful action, if any irregularity be detected.

19. He should note the results of his inspection in his diary, and also briefly in the "Inspection book" kept in the depôt.

20. *Inspection of Arrack Farm Depôts.*—The Supervisor concerned should inspect Arrack Farm Depôts at least once in ten days, and see that the prescribed Register and Ledger are duly kept up; that the requisite stock is maintained; and that the liquor is of proper strength; and check and verify the entries therein after carefully examining the stock. He should also see that the prescribed returns, &c., have been duly submitted to the authorities concerned. He should note the results of inspection in his diary, and briefly in the inspection book kept at the depôt.

21. *Inspection of Wholesale Ganja Depôts.*—The Supervisor should inspect the Ganja Wholesale Depôts at least once in ten days, and see that the prescribed accounts are duly maintained, that the stock of Ganja and Majum on hand tallies with the entries in the accounts; that all the realizations from the sale of Ganja and Majum, excluding the expenditure authorized by the Ganja Contractor, have been duly remitted to the Taluk Treasury; and that the prescribed Returns, &c., have been punctually rendered.

22. *Inspection of shops of all kinds.*—He should inspect the shops of all kinds as frequently as possible and *unexpectedly* paying particular attention to the following points:—

- (1) That the liquors or drugs sold are undiluted or unadulterated.
- (2) That they are sold to the public at prescribed rates.
- (3) That the prescribed stock is duly maintained.
- (4) That the prescribed standard measures and weights only are used.
- (5) Whether the consumption in each shop corresponds with the legitimate demand for liquor.
- (6) Whether the existing number of shops appears to meet or to be in excess of requirements.
- (7) Whether from the consumption in all the shops attached to each Farm, the bids for the same appear to be fair.
- (8) That all the rules and conditions are duly observed.

23. *Inspection of Foreign Liquor Shops and Country Beer Taverns.*—The Supervisor should frequently inspect the Foreign Liquor Shops of all kinds, and country Beer Taverns, if any, examine all the bottles of liquor kept therein, compare them with the list given in the License, and see that no liquors which are not entered in the License, are exposed for sale in the shops. He should also see that the prescribed accounts are kept up, and the necessary Returns have been punctually rendered.

24. *Inspection of Date Groves and Plantations.*—The Supervisor should inspect Date Groves and Plantations as well as Bagni and Palmyra Groves, if any, within his Range, at least once in ten days, paying particular attention to the following points:—

- (1) That trees have been tapped properly by professional men.
- (2) That trees have not been re-tapped without sufficient rest being given them.
- (3) That in tapping them, the four tender leaves, including the central shoot, have not been removed.
- (4) That young immature trees that have stems less than three feet from the springing of branches, have not been tapped.
- (5) That no leaves have been removed by any one from such immature trees or seedlings.
- (6) That no toddy is sold at the foot of trees or in the open.
- (7) That no toddy is clandestinely disposed of in groves.

- (8) That no toddy is distilled.
- (9) That the pots attached to spathes are clean.
- (10) That no putrid or bad toddy is mixed with the toddy sent to shops from groves.
- (11) That the toddy sent to shops from groves is undiluted.
- (12) That leaves have not been injuriously removed from trees by rope makers, raiyats, &c.
- (13) That all consignments of toddy are covered by Permits, and that the prescribed accounts are duly maintained by all the Toddy Vender Farmers.
- (14) That all rules and conditions are duly observed.

25. *Supervisor to take notes of issues of Toddy.*—He should take notes of the quantity of Toddy issued to the various shops in the dry weather, cold weather and in rainy weather.

26. *Raiyats to be encouraged to sow date seeds in feeders of tanks, &c.*—He should encourage raiyats to sow date seeds across feeders of tanks and in vacant spots adjoining the waterspread of tanks, so that the trees raised therein may prevent silt from being washed into tanks. He should supply the raiyats with requisite seed for the purpose.

27. *He should receive Inspectors' Diaries.*—He should receive all the fortnightly Diaries from the Inspectors of his Range through the Amildars, thoroughly scrutinize them, and submit them without delay along with his own Diary to the Deputy Commissioner with his remarks or comments.

28. *Crime Register and submission of Crime Sheet.*—He should keep a Crime Register in the prescribed form, in which shall be recorded the detailed particulars of the cases detected by himself, as well as the purport of every case detected by the Inspectors in his Range. He should submit to the Deputy Commissioner in the prescribed form the crime sheet of every case detected by him. This crime sheet will pass between the Deputy Commissioner and Supervisor until the final disposal of the case is recorded in it by the Supervisor, when it will be filed in the Deputy Commissioner's office. The crime sheets of the cases taken up by the Inspectors in his Range will be sent to him through the Amildars, when he will carefully scrutinize them, enter the purport thereof in his own Register, and then submit them to the Deputy Commissioner with his own remarks for orders. The crime sheets of any important cases should be sent by the Deputy Commissioner to the Excise Commissioner for perusal and return.

29. *Hydrometers, Thermometers, Trial Glasses, &c.*—Hydrometers, Thermometers and Trial Glasses supplied to Supervisors for testing spirits, are very delicate and expensive instruments. The Supervisors should, therefore, take great care of them, as, if broken, they will have to replace them at their own cost. They should invariably take them as well as standard measures, ullaging rods, &c., when they go out for inspection.

30. *Accounts and statistics to be furnished.*—The following accounts and statistics should be furnished by the Supervisors:—

Monthly.

- (1) "Bung wastage" and "Stand wastage" accounts of arrack.
- (2) "No stock" and "Short stock" accounts of arrack.
- (3) Account of arrack transactions in Depôts.
- (4) Account of ganja transactions in Depôts.
- (5) Return showing the sales of printed books, dram cups, &c.
- (6) Statement of shops newly opened, resigned, &c.

- (8) Ditto ditto ganja in ditto (talukwar).
- (9) Ditto ditto majum in ditto (talukwar).
- (10) Ditto ditto opium in ditto (talukwar).
- (11) Ditto ditto foreign liquors.
- (1) Ditto ditto toddy in each Farm (talukwar).

Annually.

- (13) Statement showing receipts and expenditure of arrack in depôts.
- ~~(14) Statement showing consumption of toddy in each taluk~~
- (14) Statement showing receipts and expenditure of ganja in depôts.
- (15) Account of double-distilled spirits.
- (16) Statement showing consumption of arrack in shops (talukwar).
- (17) Ditto ganja and majum in shops (talukwar).
- (18) Ditto opium in shops (talukwar).
- (19) Ditto toddy in farms (talukwar).
- (20) Statement of leave taken by Excise Officers.

SECTION III—DUTIES OF EXCISE INSPECTORS.

31. *Inspection work.*—The Inspector should be on out-door inspection duty for not less than twenty days in each month on pain of his horse allowance being deducted proportionately, if he neglect, or omit without reasonable excuse, to do out-door inspection work in any month for twenty days.

32. He should inspect Depôts of Arrack, Toddy and Ganja, and the shops of all kinds and Toddy groves and plantations, at least once a week, and see that the prescribed stocks are maintained in the Depôts and Shops, that the necessary accounts are correctly kept up; that the standard measures are used, and that all the rules and conditions are strictly observed; and he should also pay particular attention to all the points detailed under "Duties of Supervisors."

5 or a fortnight as may be ordered by the Deputy Commissioner according to the circumstances of each taluk
33. *Enforcement of the punctual payment of khists by Arrack & Toddy Farmers.*—On or after the 15th of each month, he should examine the Chellan Register of each Arrack Vend Farmer and Toddy Vend Farmer, and satisfy himself that he has paid up his monthly khist punctually on or before the 15th of the month following that to which it belongs. If the khist has not been so paid by any Farmer, he should immediately report the fact to the Deputy Commissioner through the Amildar, to enable the Deputy Commissioner to issue early orders for necessary action under para 6 of Rule XXI in Government Notification No. 495, dated 30th March 1892, or para 7 of Rule V in Government Notification No. 11813—R. 233-92, dated 14th January 1893, as the case may be.

34. *Hydrometers and other instruments, standard measures, &c.*—He should invariably take with him, for testing purposes, hydrometers and other instruments, as well as standard measures. Hydrometers, thermometers and trial glasses being delicate and expensive instruments, they should be used by him with great care. If they are broken, he will have to replace them at his own cost.

35. *Diary Register and Crime Register.*—He should keep a Diary Register in the prescribed form in which shall be recorded the work performed by him and the results of his inspections, and the prescribed Crime Register in which shall be entered the cases taken up by him. At the end of each fortnight, he should submit a Diary in the prescribed form to his Supervisor through the Amildar. He should also promptly and regularly send the report of every case taken up by him, to his Supervisor through the Amildar, in the prescribed crime sheet form. This crime sheet will pass between the Inspector, Amildar, Supervisor and Deputy Commissioner until the final disposal of the case has been recorded in it, when it will be filed in the Deputy Commissioner's office. The crime sheets of any important cases should be sent by the Deputy Commissioner to the Excise Commissioner for perusal and return.

5 or District Excise Assistant Commissioner
36. *Consumption of Arrack and Toddy and Drugs.*—He should keep two Registers, in one of which shall be duly recorded the consumption of Arrack in each of the shops attached to his taluk or circle, as the case may be, arranged according to the respective Farms; and in the other the consumption of Toddy in each of the shops attached to such taluk or circle. The quantities of toddy required for daily consumption in each shop during the dry weather, rainy weather and cold weather are known; and the issues of Toddy from groves or elsewhere are regulated accordingly. If the Inspector carefully watches the issues of Toddy to each of the shops in each of the above seasons, and notes the same, there will be no difficulty for him to ascertain and record the consumption in each shop. He should also keep another Register showing the consumption of Ganja, Majum and Opium in each shop.

or District Excise Assistant Commissioner

37. *Returns and Statistics.*—The prescribed Returns showing the consumption of Arrack, Toddy and Drugs in his taluk or circle, as the case may be, and any other required statistics should be punctually submitted through the Amildar to the Supervisor concerned.

Note . The word "Amildar" used in the above rules includes Deputy Amildar

The Secretary to the Government

General Departments

Sir,

I have the honor to report that, as I found that arrack consumption increased in localities where Depôts and shops were frequently inspected by Excise Officers, and decreased in localities where the same could not be inspected more than once in two or three months for want of hands, I have issued orders that, pending the sanction of Government to the amalgamation of the arrack and Goddy establishments, as recommended in my letter No. $\frac{4040}{379}$, dated 22nd March 1895, the Goddy Inspectors of the following taluks should inspect the arrack Depôts and shops in their respective taluks, in addition to their duties

duties relating to Goddy:-

- (1) Arsihere tatuk.
- (2) Arkalgud tatuk.
- (3) Davengere tatuk.
- (4) Holalhere tatuk.
- (5) Jagalur tatuk.

A copy of the Memo containing the a-fore-said instructions, is herewith enclosed for the information of Govern-ment.

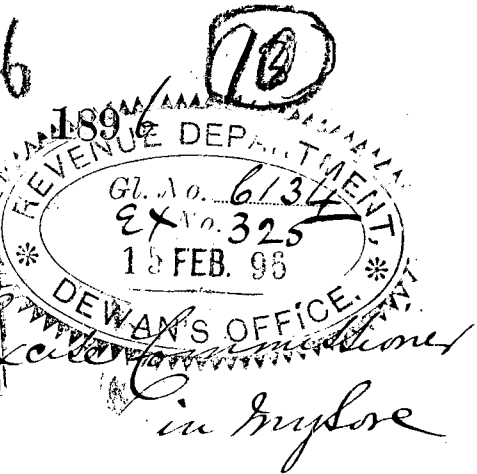

2. I have already brought to the notice of Government that, unless vigilant, frequent and efficient Supervision is exercised over Arrack Depôts, shops &c, sales of diluted arrack, short-measuring and other malpractices will undoubtedly take place to the injury of the consumers of arrack and to the loss of Excise Revenue. Therefore I beg to solicit the favor of early sanction to the amalgamation of the arrack and Goddy Establishments proposed by me in the above mentioned letter.

Dated Mysore 8th February 1896.

From.

The Deputy Commissioner of the
Mysore District.

To

The Excise Commissioner
in Mysore.

Sir,

With reference to para 5 of your official memo no. 3066-73 dated 31st ultimo, ₁₄₅ enquiring if it is necessary to ask the toddy establishment to supervise also the arrack bonded depots, the arrack retail shops and the drug shops, I beg to state as follows:-

2. This district consists of 14 taluks. They have been divided into two ranges, viz. Mysore district proper, consisting of 9 taluks, and the French Rocks Sub Division consisting of 5 taluks. For each of those ranges one tester has been sanctioned. Besides this, there is a tester for the town of Mysore. As the area to be covered by each of these testers is large, they cannot be expected to do the work of inspection frequently. Therefore till the amalgamation of the arrack and Toddy branches, the Toddy Inspectors may be told to inspect
also

also the arrack shops &c, the following arrangements
been made viz:-

(a) that the District proper tester
do supervise the bonded depôts and the
retail arrack and drug shops attached
to the Kanjagode, J. Narsipur, Pellandur
and Mysore taluks with Head Quarters
at Mysore;

(b) that one of the Sddy Inspectors
at Hunsur do also supervise the arrack
Bonded depôt, retail arrack and drug
shops in that taluk;

(c) that the Sddy Inspectors of
Heggadadeventkote and opdatore do
also look after the arrack depôts and
retail shops in their taluks.

(d) that one of the Sddy Inspectors
of Chamrajnagar, Gundalpet, Malavally
and Kagamangala do also supervise
the arrack Bonded depôts and retail
shops in their taluks;

(e) that the Sub-Division tester
do look after the Bonded depôts
and arrack retail shops of the
Sreerungapatam, Mandya and
Krishnarajapete taluks with his
Head Quarters at Sreerungapatam; and

(f) that the diaries, accounts &c relating
to the arrack and drug shops be
submitted

Submitted to the General Assistant
Supervisor by the ⁹⁰ Foddy Inspectors
as is done by testers.

Proceedings of the Government of Mysore, Excise, dated 14th April 1896.

READ:—

Correspondence ending with letter No. 4040—379, dated 22nd March 1895, from the Excise Commissioner in Mysore, submitting a memorandum suggesting the amalgamation of the Arrack and Toddy branches of the Excise executive staff together with the opinions of all the Deputy Commissioners thereon, and also a draft Circular proposed to be issued by him defining the duties and powers of each class of Excise officers of the amalgamated Inspection staff.

No. 9500-509—EX. 286, DATED, CAMP MYSORE, 14TH APRIL 1896.

ORDER THEREON.—The Excise Commissioner proposes the amalgamation of the Executive or Inspection staff of the Arrack and Toddy branches of the Excise Department. Both the Deputy Commissioners and the Excise Commissioner have given the matter their best consideration, and their views and opinions commend themselves to Government. The Excise Commissioner has, as far as possible, adopted the suggestions made by the Deputy Commissioners as regards the arrangement of ranges and the distribution of the staff. The proposal is, in the opinion of Government, a good one. It involves no additional cost to Government; the total cost of the present Arrack and Toddy executive establishments being the same as that of the proposed amalgamated staff, namely, Rs. 5,329 per mensem. The new Toddy system having passed the stage of experiment, the amalgamation recommended by the Excise Commissioner is not likely to have a prejudicial effect on the Toddy administration of the Province. The details of the proposal have been carefully thought out by the officers concerned, and Government agree in thinking that the efficiency of service in both Arrack and Toddy branches is likely to be secured by giving effect to the proposal.

2. With the foregoing observations Government are pleased to accord their sanction to the Excise Commissioner's proposal. The Inspection or Executive staff of the two branches (as now amalgamated) will stand as detailed below, the designation of the present Arrack testers and Toddy darogas being changed into Inspectors and Supervisors, respectively.

	Rs.		Rs.
1 Head Supervisor on ...	150 + 25	=	175
1 Supervisor on ...	80 + 15	=	95
1 Do 2nd grade on ...	75 + 15	=	90
1 Do 3rd grade on ...	60 + 15	=	75
6 Supervisors, 4th grade at ...	50 + 15 each	=	390
10 Do 5th grade at ...	40 + 50 do	=	550
2 Inspectors, 1st grade at ...	35 + 10 do	=	90
4 Do 2nd grade at ...	25 + 10 do	=	140
36 Do 3rd grade at ...	20 + 10 do	=	1,080
67 Do 4th grade at ...	15 + 10 do	=	1,675
4 Sub-Inspectors, 1st grade at ...	10 + 5	=	60
8 Do 2nd grade at ...	7 + 3	=	80
129 Peons (20 at Rs. 8, 15 at Rs. 7, and 94 at Rs. 6)		=	829
270	Total		5,329

3. The draft rules framed by the Excise Commissioner seem sufficient for all practical purposes, and may be given a trial subject, of course, to modification and improvement after some experience shall have been gained of the work done by the amalgamated staff.

Submitted for orders.

In the proposals filed by him and sanctioned by Govt. in Pro. No 9500-509 of the 14th April/96, the Enise Commr had suggested the formation of 3 Ranges in the Kolar District, but before this was sanctioned, he reported the selection of a Detective Asst. Supervisor from the Hassan District, for the purpose of instituting certain enquiries in and about the neighbourhood of the Gold Fields. This letter was ordered to be filed. Please see No 5456 of 20th June 95.

Without saying a word as to when the enquiries contemplated will be completed & why the Detective Asst. Supervisor should be permanently stationed in the Kolar District, the Enise Commr now proposes the formation of 4 Ranges instead of 3 as originally contemplated. The necessity for such a change is not quite apparent. Ruled for orders.

To
The Secretary to the
Government of Mysore
General & Revenue departments

Sir,

Adverting to Government
Proceedings No. 10378 dated the
29th May 1896, ^{Ex 326} I have the honor to
report that I have issued necessary
instructions for changing the designation
of the several members of the
Detective Staff so as to assimilate
them with those of the amalgamated
General Inspection Staff.

2. As rightly recommended
by my assistant Mr. Davy, the
above staff will henceforth be
called "Preventive Staff" instead
of "Detective Staff" as in other
parts of India.
